

Datasheet: 0100-0582

Description:	RABBIT ANTI HUMAN TRANSGLUTAMINASE
Specificity:	TRANSGLUTAMINASE
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	1 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	•			
Western Blotting	-			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Human
Species Cross Reactivity	Reacts with: Guinea Pig N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 5.0 mg/ml
Immunogen	Transglutaminase from guinea pig liver
RRID	AB_2240525
Specificity	Rabbit anti Human transglutaminase antibody recognizes transglutamina

aminase. The

transglutaminases (TG) are a family of enzymes that catalyze covalent cross-links between proteins via calcium dependant transamination (Huebner et al, 2012).

Rabbit anti human transglutaminase antibody was raised against the transglutaminase isoenzyme TG2. Cross reactivity with TG1 and other members of the TG protein family has not been established.

0100-0582 gives major bands at 75 and 58 kD.
Store at +4°C or at -20°C if preferred.
Storage in frost-free freezers is not recommended.
This product should be stored undiluted.
Avoid repeated freezing and thawing as this may denature the antibody.
Should this product contain a precipitate we recommend microcentrifugation before u
18 months from date of despatch.
