

Datasheet: 0178-0409 BATCH NUMBER 165801

Description:	SYNTHETIC HUMAN ACTH (aa1-39)
Name:	ACTH (aa1-39)
Other names:	ADRENOCORTICOTROPIC HORMONE
Format:	Purified
Product Type:	Antigen
Quantity:	0.1 mg

Product Details

Applications	derived from testing with communications from the information. For general	reported to work in the following applications. This information is thin our laboratories, peer-reviewed publications or personal he originators. Please refer to references indicated for further al protocol recommendations, please visit <u>www.bio-</u>

	Where this product has not been tested for use in a particular technique this does not					
	necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.					
Target Species	Human					
Product Form	Purified synthetic ACTH - liquid					
Preparation	Solid phase synthesis					
Buffer Solution	Trifluoroacetate salt					
Preservative Stabilisers	None present					
Approx. Protein Concentrations	Total protein concentration 1.0 mg/ml					
External Database Links	UniProt: P01189 Related r	eagents				

	Entrez Gene: <u>5443</u> POMC <u>Related</u>	l reagents				
Product Information	Synthetic Human ACTH is a synthetic peptide corresponding to full-length mature human ACTH, a secreted hormone that stimulates the synthesis and release of corticosteroids from the adrenal cortex.					
Protein Molecular Weight	4,541 Da					
Purity	98% by HPLC					
Amino Acid Sequenc	SYSMEHFRWGKPVGKKR	RPVKVYPNGAEDESAEAFPLEF				
Storage	•	red undiluted. Avoid repeated free. Id this product contain a precipitate	• • •			
Guarantee	12 months from date of despatch
