

Datasheet: 0200-0423

Description:	MOUSE ANTI HEPATITIS C NS-5 ANTIGEN
Specificity:	HEPATITIS C NS-5 ANTIGEN
Other names:	HCV
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	BGN/1246/5G7
Isotype:	IgG1
Quantity:	0.2 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Frozen	▪			
Immunohistology - Paraffin	▪			
ELISA	▪			
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Viral
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Carrier Free	Yes

Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	Synthetic peptide corresponding to the NS-5 antigen region of the native molecule.
RRID	AB_620577
Immunohistology	This antibody is suitable for use with formalin fixed, paraffin embedded sections and gives a strong reaction at 1/20 dilution. This product does not require antigen retrieval. The recommended incubation time is 35 minutes.
Western Blotting	0200-0423 detects a major band of approximately 50 kDa with minor bands at 35 kDa, 40 kDa and 67 kDa. This reflects bands found in DTT reduced blots of the immunising antigen and in immunoblots using a known antibody positive serum.
Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C. Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/0200-0423 10040
Regulatory	For research purposes only
