

Datasheet: 0300-0565

BATCH NUMBER 1602

Description:	MOUSE ANTI HUMAN ALKALINE PHOSPHATASE
Specificity:	ALKALINE PHOSPHATASE (BAP/PLAP/IAP+)
Other names:	AP
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	BGN/03/662
Isotype:	IgG1
Quantity:	0.2 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Human
Species Cross Reactivity	<p>Reacts with: Bacterial</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A
Buffer Solution	Phosphate buffered saline
Preservative	0.09% Sodium Azide (NaN ₃)

Stabilisers

Carrier Free Yes

Approx. Protein Concentrations 1.0 mg/ml

Immunogen Alkaline phosphatase from human bone.

Specificity **Mouse anti Human Alkaline Phosphatase antibody, clone BGN/03/662** recognizes bone specific alkaline phosphatase, a tetrameric glycoprotein found on the surface of osteoblast cells. It is normally present in high concentrations in growing bone and in bile and is released into the blood during injury and bone growth. Elevated levels can infer several conditions including Paget's disease and osteocarcinoma.

Storage Store at +4°C or at -20°C if preferred.
Storage in frost-free freezers is not recommended.
This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 12 months from date of despatch
