

Datasheet: 0400-0063

BATCH NUMBER 164783

Description:	MOUSE ANTI ADENOVIRUS HEXON
Specificity:	ADENOVIRUS HEXON
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	1431 (2C4)
Isotype:	IgG1
Quantity:	0.2 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			
Immunofluorescence	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Viral
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A from ascites
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	<0.1% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	0.1 mg/ml
Immunogen	Adenovirus type 5
RRID	AB_618867

Specificity	<p>Mouse anti Adenovirus hexon antibody, clone 1431 recognises the hexon group antigen present in most adenovirus serotypes.</p> <p>Hexon protein is a major coat protein of adenoviruses. Adenoviruses capsids have three principal protein components: the hexon, the penton, and the fiber. Hexon consists of three subunits together forming two major components of different morphological symmetry. A triangular top with three towers of density is superimposed on a more bulky pseudo hexagonal base.</p> <p>Clone 1431 has been shown to react with 34 serotypes of Adenovirus including types 40 & 41. Clone 1431 is non-reactive with Influenza A, Influenza B, RSV, Para 1, 2 & 3, Mycoplasma pneumoniae, H. pylori and mammalian cells. Crossreactivity data available for this clone.</p>
Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	<p>Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/0400-0063</p> <p>10040</p>
Regulatory	For research purposes only
