

Datasheet: 0400-0131

BATCH NUMBER 160948

Description:	MOUSE ANTI RESPIRATORY SYNCYTIAL VIRUS
Specificity:	RESPIRATORY SYNCYTIAL VIRUS
Other names:	RSV
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	2017/84
Isotype:	IgG1
Quantity:	0.2 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			1/1000
Western Blotting	▪			1/50 - 1/5000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Viral
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Carrier Free	Yes

Approx. Protein Concentrations	IgG concentration 1mg/ml
Immunogen	Native RSV.
RRID	AB_999325
Specificity	<p>Mouse anti Respiratory Syncytial Virus antibody, clone 2017/84 recognizes respiratory syncytial virus (RSV), a 100-350 nm enveloped virus belonging to the <i>Paramyxoviridae</i>, genus <i>Pneumovirus</i>, that causes minor respiratory infections in adults and bronchitis and bronchopneumonia in children. Its genome consists of single stranded, negative sense RNA that codes for 2 non-structural and 8 structural proteins.</p> <p>This antibody binds to a protein of approximately 23kD in western blot analysis, which is considered likely to be Fusion Protein F2.</p>
Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/0400-0131 10040
