

Datasheet: 0500-0100

BATCH NUMBER 156386

Description:	GOAT ANTI HUMAN IgG F(ab') ₂ :Alk. Phos.
Specificity:	IgG F(ab') ₂
Format:	Alk. Phos.
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.5 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			1/1,000 - 1/10,000
Western Blotting	▪			1/1,000 - 1/10,000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG conjugated to Alkaline Phosphatase - liquid
Preparation	Purified IgG prepared by affinity chromatography
Buffer Solution	TRIS buffered saline
Preservative	0.05% Sodium Azide (NaN ₃)
Stabilisers	1.5% Bovine Serum Albumin
Approx. Protein Concentrations	IgG concentration 0.6 mg/ml
Immunogen	Human serum.

RRID AB_616682

Specificity **Goat anti Human IgG F(ab')₂ antibody** will recognize both the heavy and light chains of the F(ab')₂ portion of human IgG by IEP. This product will also react with light chains from other human immunoglobulin types. This antibody has been cross adsorbed against the Fc domain and will react with less than 1 % of the Fc domain of human IgG.

This peroxidase-labelled antibody is a performance tested, matched reagent for HuCAL antibodies.
