

Datasheet: 0754-8050

BATCH NUMBER 1608

Description:	SHEEP ANTI BOVINE ASIALOFETUIN
Specificity:	ASIALOFETUIN
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	1 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			1/1000 - 1/4000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Bovine
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein G
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 5.0 mg/ml
Immunogen	Native

Specificity

Sheep anti Bovine asialofetuin antibody recognizes bovine Alpha-2-HS-glycoprotein, also known as asialofetuin or fetuin-A. Asialofetuin is a 359 amino acid ~55kDa secreted glycoprotein containing two [cystatin fetuin-A-type domains](#).

Asialofetuin is produced in the liver and bone marrow and acts as a negative acute-phase protein attenuating the inflammatory response to acute injury ([Wang et al. 2010](#)).

In a simple antigen down ELISA assay Sheep anti Bovine asialofetuin antibody reacts with:

asialofetuin (ab at 1/8000) 100%

fetuin (ab at 1/2000) 100%

fetuin (ab at 1/8000) 50%

Storage

Store at +4°C or at -20°C if preferred.

Storage in frost-free freezers is not recommended.

This product should be stored undiluted.

Avoid repeated freezing and thawing as this may denature the antibody.

Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee

12 months from date of despatch
