

Datasheet: 103005

BATCH NUMBER 156164

| Description:         | GOAT ANTI MOUSE IgG:HRP |
|----------------------|-------------------------|
| Specificity:         | IgG                     |
| Format:              | HRP                     |
| <b>Product Type:</b> | Polyclonal Antibody     |
| Isotype:             | Polyclonal IgG          |
| Quantity:            | 1 ml                    |

## **Product Details**

### **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

|                            | Yes | No | Not Determined | <b>Suggested Dilution</b> |
|----------------------------|-----|----|----------------|---------------------------|
| Flow Cytometry             |     |    | •              |                           |
| Immunohistology - Frozen   |     |    |                |                           |
| Immunohistology - Paraffin |     |    | •              |                           |
| ELISA                      | -   |    |                | 1/2000 - 1/5000           |
| Immunoprecipitation        |     |    | •              |                           |
| Western Blotting           |     |    | •              |                           |
| Immunoblotting             |     |    | •              |                           |

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using the appropriate negative/positive controls.

| Target Species  | Mouse   |                        |
|---|---|------------------------|
| Product Form  | Purified IgG conjugated to Horseradish Peroxidase (HRP) - liq                               | uid                    |
| Preparation   | Purified IgG prepared by affinity chromatography on pooled mouse IgG covalently to agarose. |                        |
| Antiserum Preparation Antisera to mouse IgG were raised by repeated immunisations of goats with purified antigen. |   | s of goats with highly |
| Buffer Solution   | Phosphate buffered saline   |                        |
| Preservative  | 50% Glycerol  |                        |

| Stabilisers       |   |                         |   |  |  |  |
|-------------------|---|-------------------------|---|--|--|--|
| External Database |   |                         |   |  |  |  |
| Links             |   | UniProt:                |   |  |  |  |

Storage Store at -20°C only. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use. Guarantee Guaranteed until date of expiry. Please see product label. **Health And Safety** Material Safety Datasheet documentation #10106 available at: Information https://www.bio-rad-antibodies.com/SDS/103005 10106 Regulatory For research purposes only
