

## Datasheet: 1707-2004 BATCH NUMBER 156843

Description:	NATIVE HUMAN C-REACTIVE PROTEIN
Name:	C-REACTIVE PROTEIN
Other names:	CRP
Format:	Purified
Product Type:	Purified Protein
Quantity:	1 mg

## **Product Details**

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .						
	rad-antibodies.com/protoc	Yes	No	Not Determined	Suggested Dilution		
	ELISA	•					
	Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.						
Target Species	Human						
Product Form	Purified protein from human plasma - liquid						
Buffer Solution	TRIS buffered saline						
Preservative Stabilisers	0.09% Sodium Azide (NaN <sub>3</sub> )						
Approx. Protein Concentrations	1.0 mg/ml						
External Database Links	UniProt: <u>P02741</u> <u>Related rea</u> Entrez Gene: <u>1401</u> CRP <u>Related rea</u>						

Synonyms	S	PTX1					
<b>Product Information</b> C-reactive protein is an acute phase protein, produced by the marker of inflammation and for monitoring and predicting cord in the blood as a large pentamer of approximately 114 kDa.							
Protein Me Weight	olecular	114 kDa					
Purity		>96% by SDS-PAGE					
Storage		Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended.					
		•	Should this product conta	•	zing and thawing as this may e we recommend		
Guarantee	9						
Health And Safety Information		Material Safety Datasheet documentation #10236 available at: https://www.bio-rad-antibodies.com/SDS/1707-2004 10236					
		Donor material tested and found negative for HIV1 and 2 antibodes, HBsAg and HCV antibodies.					
		As no test can comple handled as potentially		rial to be free o	of pathogens it should be
