

Datasheet: 1723-0105

Description:	MOUSE ANTI DUCK CALDESMON
Specificity:	CALDESMON
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	2B5
Isotype:	IgG1
Quantity:	0.2 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species

Duck

Species Cross Reactivity

Reacts with: Human, Chicken

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Purified IgG prepared by affinity chromatography on Protein A from ascites

Buffer Solution

Phosphate buffered saline

Preservative

<0.1% Sodium Azide (NaN₃)

Stabilisers

Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
---------------------------------------	-----------------------------

Immunogen	Duck gizzard caldesmon (heavy type)
------------------	-------------------------------------

RRID	AB_617023
-------------	-----------

Specificity	Mouse anti Duck caldesmon antibody, clone 2B5 reacts with the high molecular mass (120-150 kDa) and lower molecular mass (71-80 kDa) forms of caldesmon, an actin interacting and calmodulin binding protein found in smooth muscle and other cell types.
--------------------	--

Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C. Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.
----------------	--

Guarantee	12 months from date of despatch
------------------	---------------------------------

Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/1723-0105 10040
--------------------------------------	---

Regulatory	For research purposes only
-------------------	----------------------------
