

Datasheet: 2090-0351 **BATCH NUMBER 165001** 

| Description:  | SHEEP ANTI hCG (INTACT) |  |
|---------------|-------------------------|--|
| Specificity:  | hCG (INTACT)            |  |
| Format:       | Purified                |  |
| Product Type: | Polyclonal Antibody     |  |
| Isotype:      | Polyclonal IgG          |  |
| Quantity:     | 1 ml                    |  |

## **Product Details**

## **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

|                            | Yes | No | Not Determined | Suggested Dilution |
|----------------------------|-----|----|----------------|--------------------|
| Flow Cytometry             |     |    | •              |                    |
| Immunohistology - Frozen   |     |    | •              |                    |
| Immunohistology - Paraffin |     |    |                |                    |
| ELISA                      | •   |    |                | 1/500 - 1/1000     |
| Western Blotting           |     |    | •              |                    |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

| Target Species                 | Human   |
|--------------------------------|---|
| Product Form                   | Purified IgG - liquid   |
| Preparation                    | Purified IgG prepared by affinity chromatography on Protein G |
| Buffer Solution                | Phosphate buffered saline                                     |
| Preservative<br>Stabilisers    | 0.09% Sodium Azide (NaN <sub>3</sub> )                        |
| Approx. Protein Concentrations | IgG concentration 5.0mg/ml                                    |
| Immunogen                      | Native hCG.   |
|                                |   |

| Specificity                      | Sheep anti Human chorionic gonadotrophin antibody recognizes human chorionic gonadotrophin (hCG), a ~30 kDa hormone produced by placental syncytiotrophoblasts. hCG acts to maintain the corpus luteum until the developing placenta is able to produce the required levels of oestrogen and progesterone.  hCG shares a common alpha chain with the pituitary hormones FSH, TSH and LH, but has a unique beta chain. Sheep anti Human chorionic gonadotrophin antibody reacts with intact hCG. |
| Storage                          | This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.  Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.  |
| Guarantee                        | 12 months from date of despatch   |
