

Datasheet: 2150-0040

BATCH NUMBER 154869

Description:	MOUSE ANTI HUMAN COLLAGEN II
Specificity:	COLLAGEN II
Format:	Ascites
Product Type:	Monoclonal Antibody
Clone:	COLL-II
Isotype:	IgG1
Quantity:	0.1 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	▪			1/50
ELISA	▪			1/100 - 1/500
Western Blotting	▪			1/1000 - 1/2000
Immunofluorescence (1)	▪			Neat - 1/5

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) Suitable for use on fresh, frozen or acetone fixed material. Mild pepsin digestion is recommended to enhance staining.

Target Species	Human
Species Cross Reactivity	<p>Reacts with: Rat, Bovine, Sheep, Mouse, Dog, Pig</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
Product Form	Ascites - liquid
Preservative Stabilisers	None present

Immunogen Human (cartilage specific) CNBr-cleaved collagen 2.

Specificity

Mouse anti Collagen II antibody, clone COLL-II recognizes human collagen type II, the main collagen in cartilaginous tissue. Mouse anti Collagen II antibody, clone COLL-II reacts with both pepsin solubilised and CNBr-cleaved human and bovine collagen type II. No-cross reactivity is seen with types I, III, V or IX.

Storage

Store at -20°C only.
Storage in frost-free freezers is not recommended.
This product should be stored undiluted.
Avoid repeated freezing and thawing as this may denature the antibody.
Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee

12 months from date of despatch
