

Datasheet: 2400-1986

BATCH NUMBER 090714

Description:	MOUSE ANTI HUMAN CREATINE PHOSPHOKINASE (MB)
Specificity:	CREATINE PHOSPHOKINASE (MB)
Other names:	CKMB
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	1302 (1F2/1)
Isotype:	IgG2b
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			
Western Blotting			▪	
IRMA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A.
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Approx. Protein	IgG concentration 1.0 mg/ml

Concentrations

Immunogen Highly purified human CKMB.

Synonyms CKBB, CKMM

RRID AB_617234

Specificity

Mouse anti creatine phosphokinase antibody, clone 1302 recognizes creatine phosphokinase, also known as creatine kinase (CK), is an enzyme expressed by various tissues and cell types. CK catalyses the conversion of creatine and consumes adenosine triphosphate (ATP) to create phosphocreatine and adenosine diphosphate (ADP).

In cells, the "cytosolic" CK enzymes consist of two subunits, which can be either B (brain type) or M (muscle type). There are three different isoenzymes: CKMM, CKBB and CKMB.

Mouse anti creatine phosphokinase antibody, clone 1302 recognises CKMB but does not distinguish between isoform CKMB1 and CKMB2. Mouse anti creatine phosphokinase antibody, clone 1302 shows less than 0.1% reactivity with CKBB or CKMM and minimal reactivity with other human serum proteins.

Storage

Store at +4°C or at -20°C if preferred.

Storage in frost-free freezers is not recommended.

This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 12 months from date of despatch
