

Datasheet: 405002

BATCH NUMBER 160493

Description:	GOAT ANTI RABBIT IgG (H/L):FITC
Specificity:	IgG (H/L)
Format:	FITC
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	▪			1/10 - 1/100
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA			▪	
Immunoprecipitation			▪	
Western Blotting			▪	

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

Target Species

Rabbit

Species Cross Reactivity

Does not react with: Mouse, Human

Product Form

Purified Ig conjugated to Fluorescein Isothiocyanate Isomer 1 (FITC) - liquid

Max Ex/Em

Fluorophore	Excitation Max (nm)	Emission Max (nm)
FITC	490	525

Antiserum Preparation Antisera to rabbit IgG (H+L) were raised by repeated immunisations of goats with normal rabbit IgG. Purified IgG was prepared from whole serum by affinity chromatography on pooled rabbit IgG covalently linked to agarose. The preparation has been cross absorbed against human and mouse sera and purified paraproteins to minimise potential cross

reactivity.

Buffer Solution Phosphate buffered saline

Preservative Stabilisers <0.1% Sodium Azide (NaN₃)

Approx. Protein Concentrations Ig concentration 1.0 mg/ml

Immunogen Normal rabbit IgG.

Specificity **Goat anti Rabbit IgG (H/L) antibody** recognises rabbit IgG heavy and light chains and the light chains of rabbit IgM and IgA as demonstrated by ELISA and flow cytometry.

Flow Cytometry Use 10ul of the suggested working dilution to label 1x10⁶ cells in 100ul.

Storage This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended. This product is photosensitive and should be protected from light.

Guarantee Guaranteed until date of expiry. Please see product label.
