

Datasheet: 4113-0957

BATCH NUMBER 140612

Description:	RAT ANTI HUMAN ENDOTHELIN
Specificity:	ENDOTHELIN
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	3G10
Isotype:	IgG2b
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Frozen (1)	▪			
IRMA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

(1)Frozen sections processed with dry acetone are recommended. Paraformaldehyde is not recommended as it destroys the epitope.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml

Immunogen Synthetic peptide corresponding to the c-terminal region of human endothelin (CHLDIIW) conjugated to BSA.

RRID AB_620376

Specificity **Rat anti Human endothelin antibody, clone 3G10** reacts with the C terminal of endothelins 1, 2 and 3. Rat anti Human endothelin antibody, clone 3G10 does not react with the endothelin precursor molecule, big endothelin. The endothelins are potent vasoconstrictors and critical components in the progression of pulmonary arterial hypertension a devastating and rapidly progressive condition that leads to right ventricular strain and dysfunction.

Immunohistology Frozen sections processed with dry acetone are recommended. Paraformaldehyde is not recommended as it destroys the epitope.

References 1. Yao, J. *et al.* (2001) Endothelin is a potent inhibitor of matrix metalloproteinase-2 secretion and activation in rat mesangial cells. [Am J Physiol Renal Physiol. 280: F628-635.](#)

Storage Store at +4°C or at -20°C if preferred.
Storage in frost-free freezers is not recommended.
This product should be stored undiluted.
Avoid repeated freezing and thawing as this may denature the antibody.
Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 18 months from date of despatch.
