

Datasheet: 4420-4804

Description:	NATIVE HUMAN FERRITIN
Name:	FERRITIN
Format:	Purified
Product Type:	Purified Protein
Quantity:	1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Human
Product Form	Purified protein from human liver - liquid
Preparation	Multiple purification steps
Buffer Solution	TRIS buffered sodium chloride pH 7-8
Preservative	<0.01% bromo-nitro-dioxane
Stabilisers	<0.01% methylisothiazolone
Approx. Protein Concentrations	3.0 mg/ml

Product Information	Native human Ferritin is a purified preparation of human ferritin from liver tissue. Ferritin is a globular protein composed of 24 identical subunits responsible for storing iron in an available non-toxic form. Ferritin is found primarily in hepatic tissue. Serum levels of ferritin are used as an indicator for anaemia and restless leg syndrome. Ferritin levels are a direct correlate for the total amount of iron stored in the body

Health And Safety Information	Material Safety Datasheet documentation #10520 available at: 10520: https://www.bio-rad-antibodies.com/uploads/MSDS/10520.pdf Donor material tested and found negative for HIV-1/HCV/HBV by NAT, HBsAg, HCV Ab, HIV 1&2 Ab, and RPR by currently approved FDA methods. As no test can completely guarantee this material to be free of pathogens it should be handled as potentially infectious.
--------------------------------------	---

Regulatory	For research purposes only
