

Datasheet: 4430-2204 BATCH NUMBER 154690

Description:NATIVE BOVINE FETUINName:FETUINFormat:PurifiedProduct Type:AntigenQuantity:1 g

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .
	Yes No Not Determined Suggested Dilution ELISA •
	Where this product has not been tested for use in a particular technique this does not
	necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.
Target Species	Bovine
Product Form	Purified bovine fetuin from fetal calf serum - lyophilized
Reconstitution	Use sterile distilled water to give a solution of 1.0 mg/ml
Preservative Stabilisers	None present
External Database

Synonyms	FETUA

Protein Molecular Weight 48.4 kDa Purity Protein content: ≥80% Total impurities: ≤0.3% Free N-acetyl-neuraminic acid References 1. Dziegielewska, K. M. <i>et al.</i> (1990) The complete cDNA and amino acid bovine fetuin. Its homology with alpha 2HS glycoprotein and relation to of the cystatin superfamily. J. Biol. Chem. 265: 4354 - 4357. Storage Prior to reconstitution store at +4°C. After reconstitution store at -20°C. Storage in frost-free freezers is not recommended. This product should b undiluted. Avoid repeated freezing and thawing as this may denature the protein. Should this product contain a precipitate we recommend microcentrifugat Guarantee 6 months from date of despatch Health And Safety Material Safety Datasheet documentation #10286 available at:
