

Datasheet: 4670-1202

Description:	NATIVE YEAST GLUCOSE-6-PHOSPHATE DEHYDROGENASE
Name:	GLUCOSE-6-PHOSPHATE DEHYDROGENASE
Other names:	G6PD
Format:	Purified
Product Type:	Purified Protein
Quantity:	1 KU

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Yeast
Product Form	Semi purified protein from yeast - lyophilised
Reconstitution	Reconstitute with 1.0ml distilled water Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution.
Preservative Stabilisers	None present
Approx. Protein Concentrations	61%.
External Database Links	UniProt: P11412 Related reagents
Synonyms	MET19

Activity 270 U/mg solid
443 U/mg protein

1 unit reduces 1 micromole of NADP⁺ per minute at 25°C and pH 8.0.

Storage Prior to reconstitution store at +4°C.
After reconstitution store at -20°C.
Storage in frost-free freezers is not recommended. This product should be stored undiluted.
Avoid repeated freezing and thawing as this may denature the antibody.
Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 18 months from date of despatch.
