

Datasheet: 4939-8550

BATCH NUMBER 171155

Description:	MOUSE ANTI HEPATITIS B CORE ANTIGEN
Specificity:	HEPATITIS B CORE ANTIGEN
Other names:	HBcAg
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	Hep2 (H69)
Isotype:	IgG3
Quantity:	0.2 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA			▪	
Western Blotting			▪	
Immunofluorescence	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Viral
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography and refined by S300 exclusion chromatography from tissue culture supernatant
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	<0.1% Sodium Azide (NaN ₃)

Approx. Protein Concentrations	IgG concentration 0.25 mg/ml
Immunogen	Purified hepatitis B core antigen.
RRID	AB_619043
Fusion Partners	Spleen cells from immunised Balb/C mice were fused with cells of the SP2/0-Ag-14 myeloma cell line.
Specificity	<p>Mouse anti Hepatitis B Core Antigen antibody, clone Hep2 recognizes the Hepatitis B core antigen (HBcAg), the highly immunogenic 21kDa replicative form of the Hepatitis B virus (HBV), expressed by infected cells.</p> <p>Antibodies to HBcAg are produced by the host during and following an acute HBV infection and can be detected in chronic HBV carriers and patients recovered from HBV infection, usually persisting in the body for life.</p>
Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/4939-8550
Regulatory	For research purposes only
