

Datasheet: 5172-9017

BATCH NUMBER 159883

Description:	NATIVE HUMAN IgG
Name:	IgG
Format:	Purified
Product Type:	Antigen
Quantity:	25 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified immunoglobulin from human serum - lyophilised
Reconstitution	Reconstitute with 5.0 ml PBS and mix well. Heating to 37°C may aid reconstitution. Following reconstitution, storage at +4°C and the addition of 0.09% sodium azide is recommended.
Preparation	Purified IgG isolated from a single donor containing Bence Jones protein.
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	None present.

Storage This product is shipped at ambient temperature. Prior to reconstitution store at +4°C. After reconstitution it is recommended to aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the protein. Storage in frost-free freezers is not recommended.

Guarantee 12 months from date of despatch

Health And Safety Information Material Safety Datasheet documentation #10209 available at: <https://www.bio-rad-antibodies.com/SDS/5172-9017>
10209

Donor material tested and found negative for HIV1 antigen, HIV antibodies and HBsAg.

As no test can completely guarantee this material to be free of pathogens it should be handled as potentially infectious
