

Datasheet: 5731-3000

Description:	MOUSE ANTI HUMAN LUTEINIZING HORMONE RELEASING HORMONE RECEPTOR
Specificity:	LUTEINIZING HORMONE RELEASING HORMONE RECEPTOR
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	A9E4
Isotype:	IgG1
Quantity:	0.2 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	▪			
Immunohistology - Frozen	▪			
ELISA	▪			
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Carrier Free	Yes
Approx. Protein	IgG concentration 1.0 mg/ml

Concentrations

Immunogen Synthetic peptide corresponding to the amino acids 1 - 29 of the human luteinizing hormone releasing hormone receptor extracellular domain, conjugated to Bovine Serum Albumin.

Specificity

Mouse anti Human Luteinizing Hormone Releasing Hormone Receptor antibody, clone A9E4 recognizes human luteinizing hormone releasing hormone receptor (human GnRH receptor) found in the anterior pituitary.

Storage

This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

Guarantee

12 months from date of despatch
