

# Datasheet: 6220-0004G

#### BATCH NUMBER 162369

| Description:  | SHEEP ANTI HUMAN ALPHA 1 MICROGLOBULIN |
|---------------|--|
| Specificity:  | ALPHA 1 MICROGLOBULIN                  |
| Other names:  | AMBP                                   |
| Format:       | Purified                               |
| Product Type: | Polyclonal Antibody                    |
| Isotype:      | Polyclonal IgG                         |
| Quantity:     | 1 ml                                   |

# **Product Details**

| Applications                | This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .   |     |            |                       |                        |  |
|-----------------------------|--|-----|------------|-----------------------|------------------------|--|
|                             |  | Yes | No         | Not Determined        | Suggested Dilution     |  |
|                             | ELISA  | -   |            |                       | 1/500 - 1/1000         |  |
|                             | Immunodiffusion  | -   |            |                       |                        |  |
|                             | Where this product has not been tested for use in a particular technique this does not<br>necessarily exclude its use in such procedures. Suggested working dilutions are given as<br>a guide only. It is recommended that the user titrates the product for use in their own<br>system using the appropriate negative/positive controls.<br>Excessive excretion of this protein has been known to indicate abnormalities of the renal<br>tubules. |     |            |                       |                        |  |
| Target Species              | Human  |     |            |                       |                        |  |
| Species Cross<br>Reactivity | Does not react with:Rat  |     |            |                       |                        |  |
| Product Form                | Purified IgG - liquid  |     |            |                       |                        |  |
| Preparation                 | Purified IgG prepared by affinity chromatography on Protein G  |     |            |                       |                        |  |
| Antiserum Preparatio        | <b>n</b> Antisera to human alpha<br>with highly purified antige  | -   | lubulin we | re raised by repeated | immunisations of sheep |  |
| Buffer Solution             | Phosphate buffered salir   | ie  |            |                       |                        |  |

| Preservative<br>Stabilisers       | 0.09% Sodium Azide (NaN <sub>3</sub> )   |  |  |  |
|-----------------------------------|--|--|--|--|
| Approx. Protein<br>Concentrations | 5mg/ml   |  |  |  |
| Immunogen                         | Highly pure human alpha-1-microglobulin, prepared from the urine of patients with chronic renal proteinuria, molecular weight 25-30 kDa.   |  |  |  |
