Datasheet: 6400-2227

BATCH NUMBER 145675

Description:	RABBIT ANTI MYCOPLASMA PNEUMONIAE:Biotin
Specificity:	MYCOPLASMA PNEUMONIAE
Format:	Biotin
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	1 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA			▪	
Western Blotting			▪	
Immunofluorescence	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Bacterial
Species Cross Reactivity	Does not react with:Human, Bovine
Product Form	Purified IgG conjugated to Biotin - liquid
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.1% Sodium Azide (NaN_3)
Approx. Protein Concentrations	IgG concentration 4.0 mg/ml

Immunogen	Purified *Mycoplasma pneumoniae*
RRID	AB_619852
Specificity	**Rabbit anti *Mycoplasma pneumoniae* antibody** recognises *M. pneumoniae*, a bacterium which is distinguished phenotypically from other bacteria by lacking a peptidoglycan cell wall. *M. pneumoniae* is exclusively a human pathogen, and primarily attaches to mucosa in the upper and lower respiratory tract. It is transmitted by respiratory droplets, and infection can cause bronchial asthma, bronchitis and pneumonia. Central nervous system (CNS) manifestations are the most frequent extrapulmonary complications, and include encephalitis, aseptic meningitis, cerebellar ataxia, and myelitis. Rabbit anti *Mycoplasma pneumoniae* antibody has not been cross absorbed and may react with related microorganisms.
Storage	Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/6400-2227 10040
Regulatory	For research purposes only
