

Datasheet: 6880-0410

| | |
|----------------------|--|
| Description: | RABBIT ANTI HUMAN NON-NEURONAL ENOLASE |
| Specificity: | NON-NEURONAL ENOLASE (ALPHA-ALPHA) |
| Other names: | NNE |
| Format: | Purified |
| Product Type: | Polyclonal Antibody |
| Isotype: | Polyclonal IgG |
| Quantity: | 1 ml |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |
|----------------------------|-----|----|----------------|--------------------|
| Immunohistology - Frozen | ▪ | | | 1/25 - 1/100 |
| Immunohistology - Paraffin | ▪ | | | 1/25 - 1/100 |
| ELISA | ▪ | | | |
| Western Blotting | ▪ | | | |

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

| | |
|---------------------------------|---|
| Target Species | Human |
| Product Form | Purified IgG - liquid |
| Preparation | Purified IgG prepared by affinity chromatography on Protein G |
| Buffer Solution | Phosphate buffered saline |
| Preservative Stabilisers | 0.09% Sodium Azide (NaN ₃) |
| Approx. Protein | IgG concentration 5mg/ml |

Concentrations

Immunogen Native human NNE

Specificity

Rabbit anti Human non-neuronal enolase polyclonal antibody recognises human non-neuronal enolase, also known as alpha enolase or enolase 1. Rabbit anti non-neuronal enolase demonstrates less than 0.1% cross-reactivity with neuron-specific enolase.

Non-neuronal enolase is a glycolytic enzyme composed of homodimeric alpha enolase subunits and is expressed in most human tissues. The gene coding for the 48 kDa form of non-neuronal enolase also codes for a shorter 37 kDa isoform, myc-binding protein 1 (MBP-1) lacking the N-terminal 93 amino acids of non-neuronal enolase.

Storage

This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

Guarantee 12 months from date of despatch
