

Datasheet: 6970-1004

BATCH NUMBER 147624

Description:	MOUSE ANTI HUMAN NUCLEAR ANTIGEN
Specificity:	NUCLEAR ANTIGEN (NUCLEI AND CHROMOSOMES)
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	1415-1 (21NC85)
Isotype:	IgG2a
Quantity:	0.1 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Frozen	▪			
Immunohistology - Paraffin	▪			1/50
ELISA	▪			
Western Blotting (1)	▪			
Immunofluorescence	▪			1/20 - 1/30

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

(1)Clone 1415-1 recognizes a primary band between 30 and 32kDa under non-reducing conditions. Other bands may also be present

Target Species	Human
Species Cross Reactivity	<p>Reacts with: Rat</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by protein A and ion exchange chromatography from tissue culture

supernatant

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Immunogen	Native
RRID	AB_617391
Specificity	Mouse anti Human Nuclear Antigen, clone 1415-1 , preferentially reacts with histone H1, a nuclear protein necessary for the condensation of nucleosome chains into higher order structures. This clone stains nuclei of all human cell types and also stains chromosomes diffusely in metaphase cells. Intense diffuse staining is obtained in interphase cells.
Histology Positive Control Tissue	Human Tonsil
Storage	Store at -20°C only. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/6970-1004 10040
Regulatory	For research purposes only
