

Datasheet: 740601L

Description:	RECOMBINANT PROTEIN G
Name:	PROTEIN G
Format:	Rec. Protein
Product Type:	Recombinant Protein
Quantity:	5 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			
Immunoprecipitation	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Bacterial
Product Form	Recombinant Protein - lyophilized
Reconstitution	Reconstitute with 1ml phosphate buffered saline
Preparation	Recombinant Protein G, from <i>Streptococcus</i> strain G148, expressed in <i>E.coli</i>
Preservative Stabilisers	None present

Product Information **Recombinant Protein G** is a preparation of streptococcal protein G expressed in *E. coli*. Protein G binds to the Fc portion of immunoglobulin G subclasses (IgGs) from a broad range of species including human and mouse, and does not bind IgA, IgE, IgM or serum albumin.
