

Datasheet: 7460-3104

Description:	MOUSE ANTI HUMAN CD140b
Specificity:	CD140b
Other names:	PDGF RECEPTOR BETA
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	PR7212
Isotype:	IgG1
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	▪			25 μ g/ml
Immunohistology - Frozen	▪			
Immunohistology - Paraffin	▪			25 μ g/ml
Immunoprecipitation	▪			
Western Blotting	▪			
Immunofluorescence	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species

Human

Species Cross Reactivity

Reacts with: Baboon, Monkey

Does not react with: Mouse, Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Purified IgG prepared by affinity chromatography on Protein G from ascites

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	<0.1% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	1.0 mg/ml
Immunogen	Human skin fibroblast cell membrane extracts.
External Database Links	<p>UniProt: P09619 Related reagents</p> <p>Entrez Gene: 5159 PDGFRB Related reagents</p>
RRID	AB_2162788
Specificity	<p>Mouse anti Human CD140b antibody, clone PR7212 recognizes the extracellular domain of the human PDGF receptor beta subunit., confirmed using several different cell lines and by its ability to immunoprecipitate PDGF receptor beta complexed with ¹²⁵I-PDGF-BB (Hart et al. 1987). Mouse anti Human CD140b antibody, clone PR7212 does not recognize PDGF receptor alpha.</p> <p>PDGF receptor beta is a member of the class III receptor tyrosine kinase family that also includes M-CSF receptor, SCF receptor and Flt-3. Binding of PDGF-BB induces receptor homodimerization or heterodimerization with PDGF receptor alpha.</p>
Histology Positive Control Tissue	Human breast cancer tissue

Storage This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

Guarantee 12 months from date of despatch
