Datasheet: 7480-2004

Description:	SHEEP ANTI RABBIT PLATELETS
Specificity:	PLATELETS
Format:	Serum
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	1 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species

Rabbit

Product Form

Defibrinated plasma containing EDTA used to chelate excess calcium used to reverse citrate anticoagulation, pH neutralized with sodium hydroxide.

Preservative Stabilisers

0.09% Sodium Azide (NaN3)

Immunogen

Rabbit platelets.

RRID

AB_618752

Specificity

Sheep anti Rabbit platelets antibody reacts with lapine platelets. Binding to platelets is strongly positive with thymocyte-absorbed anti platelet serum and negative with thymocyte-absorbed normal sheep serum.

Storage

Store at +4°C or at -20°C if preferred.
Storage in frost-free freezers is not recommended.
This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend

	microcentrifugation before use.
Guarantee	18 months from date of despatch.
Health And Safety Information	Material Safety Datasheet documentation #10081 available at: 10081: https://www.bio-rad-antibodies.com/uploads/MSDS/10081.pdf
Regulatory	For research purposes only
