

Datasheet: 7820-0604

BATCH NUMBER 180628

| | |
|----------------------|--|
| Description: | NATIVE HUMAN PROSTATE SPECIFIC ANTIGEN |
| Name: | PROSTATE SPECIFIC ANTIGEN |
| Other names: | KALLIKREIN 3 |
| Format: | Purified |
| Product Type: | Purified Protein |
| Quantity: | 0.2 mg |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |
|-------|-----|----|----------------|--------------------|
| ELISA | ▪ | | | |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

| | |
|---------------------------------------|--|
| Target Species | Human |
| Product Form | Purified protein from human seminal fluid - liquid |
| Preparation | Sterile filtered through a 0.2 µM membrane |
| Buffer Solution | Phosphate buffered saline |
| Preservative Stabilisers | 0.09% Sodium Azide (NaN ₃) |
| Approx. Protein Concentrations | 1.0 mg/ml |

| Synonyms | APS |
|-----------------|-----|

| | |
|----------------------------|--|
| Product Information | <p>Native Human prostate specific antigen preparation is a purified form of human prostate-specific antigen (PSA), a glycoprotein of ~30 kDa found mainly in prostatic tissue and seminal fluid. PSA is also present in small quantities in the serum of normal men and is often elevated in the presence of prostate cancer and in other prostatic disorders.</p> <p>Native Human prostate specific antigen demonstrates high specific activity and low levels of any contaminating proteins, including those with trypsin-like protease activity (Manning et al. 2012).</p> |
|----------------------------|--|

| | |
|---------------------------------|--------|
| Protein Molecular Weight | 30 kDa |
|---------------------------------|--------|

| | |
|---------------|------------------|
| Purity | >40% by SDS-PAGE |
|---------------|------------------|

| Storage | <p>Store at +4°C or at -20°C if preferred.</p> <p>Storage in frost-free freezers is not recommended.</p> <p>This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the protein. Should this product contain a precipitate we recommend microcentrifugation before use.</p> |

|--------------------------------------|--|
| Health And Safety Information | <p>Material Safety Datasheet documentation #10258 available at: https://www.bio-rad-antibodies.com/SDS/7820-0604</p> <p>10258</p> |
|--------------------------------------|--|

Donor material tested and found negative for HIV1 and 2 antibodies, HBsAg and HCV antibodies.

As no test can completely guarantee this material to be free of pathogens it should be handled as potentially infectious
