

Datasheet: 7950-0980

BATCH NUMBER 157542

Description:	MOUSE ANTI RESPIRATORY SYNCYTIAL VIRUS MAJOR SURFACE GLYCOPROTEIN G
Specificity:	RESPIRATORY SYNCYTIAL VIRUS MAJOR SURFACE GLYCOPROTEIN G
Other names:	RSV
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	8C5 (9B6)
Isotype:	IgG2a
Quantity:	0.2 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			
Western Blotting	▪			
Immunofluorescence			▪	

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Viral
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein G
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)

Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	Purified RSV.
External Database Links	UniProt: P20895 Related reagents
RRID	AB_619297
Specificity	Mouse anti Respiratory syncytial virus, major surface glycoprotein G antibody, clone 8C5 recognizes the major glycoprotein G of Respiratory Syncytial virus (RSV). RSV is a 100-350 nm enveloped virus belonging to the <i>Paramyxoviridae</i> , genus Pneumovirus, that causes minor respiratory infections in adults and bronchitis and bronchopneumonia in children. Its genome consists of single stranded, negative sense RNA that encodes three envelope glycoproteins, a small hydrophobic (SH) protein of unknown function, a major glycoprotein (G) known as the attachment protein, and a fusion (F) protein.
Storage	Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/7950-0980 10040
Regulatory	For research purposes only
