

Datasheet: 8209-5349

BATCH NUMBER 159909

Description:	MOUSE ANTI SALMONELLA ENTERITIDIS LPS GROUP D 0-12 ANTIGEN
Specificity:	SALMONELLA ENTERITIDIS LPS GROUP D 0-12 ANTIGEN
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	10D9H (E91)
Isotype:	IgG1
Quantity:	0.2 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Bacterial
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein G
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	<0.1% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	1.0 mg/ml
Immunogen	Heat inactivated cells from Salmonella (LPS groups A, B & D).
RRID	AB_619298

Specificity	Mouse anti <i>Salmonella enteritidis</i> antibody, clone 10D9H recognizes a common antigenic determinant that is found in the LPS of <i>Salmonella enteritidis</i> (Group D), <i>Salmonella typhimurium</i> (Group B) and <i>Salmonella paratyphi</i> (Group A) . This antibody is thought to recognise the '0-12' antigen [2-D-mannose (1-4) l- ramnose (1-3)-D galactose] of salmonella LPS. A similar sequence is found in Group E, which may account for the weak cross reactivity observed with bacteria of this group.
Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C. Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/8209-5349 10040
Regulatory	For research purposes only
