### Fusion Partners
Spleen cells from immunised Wistar rat were fused with cells of the NS1/1-Ag 4-1 myeloma cell line.

### Specificity
**Rat anti substance P antibody, clone NC1/34** recognizes the COOH terminal end of substance P, a short polypeptide neurotransmitter that regulates the excitability of dorsal horn nociceptive neurons. It is known to have a role in several physiologic activities such as pain transmission, the vomiting reflex, salivary secretion and smooth muscle contraction.

5% reactivity is observed with eledoisin. It does not react with Leu or Met-enkephalin, somatostatin or beta-endorphin.
