

Datasheet: 9536-1130

BATCH NUMBER 170207

Description:	RABBIT ANTI RAT ARG VASOPRESSIN RECEPTOR
Specificity:	ARG VASOPRESSIN RECEPTOR
Other names:	AVPR-V2
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Frozen	▪			
Immunohistology - Paraffin			▪	
ELISA	▪			
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species

Rat

Species Cross Reactivity

Based on sequence similarity, is expected to react with: Bovine, Human, Pig, Mouse
N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Purified IgG prepared by affinity chromatography.

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers	0.1% Bovine Serum Albumin
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	21 amino acid peptide from the 3rd cytoplasmic domain of rat AVP-V2.
External Database Links	<p>UniProt: Q00788 Related reagents</p> <p>Entrez Gene: 25108 Avpr2 Related reagents</p>
RRID	AB_620510
Specificity	Rabbit anti Rat ARG vasoressin receptor antibody Arginine Vasopressin Receptor (AVPR-V2). The immunising peptide has no significant similarity with AVP V1a or V1b receptors.
Western Blotting	A glycosylated band at approximately 62 kD is observed using membranes from rat inner medulla. N-Glycanase reduces the size of this band to 36 kD (deglycosylated form).
References	1. Nonoguchi, H. <i>et al.</i> (1995) Immunohistochemical localization of V2 vasopressin receptor along the nephron and functional role of luminal V2 receptor in terminal inner medullary collecting ducts. J Clin Invest. 96 (4): 1768-78.
Storage	Store at -20°C only. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch.
Health And Safety Information	Material Safety Datasheet documentation #10102 available at: https://www.bio-rad-antibodies.com/SDS/9536-1130 10102
Regulatory	For research purposes only
