

Datasheet: 9540-1159

Description:	MOUSE ANTI CHOLERA HAEMOLYSIN
Specificity:	CHOLERA HAEMOLYSIN
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	2024/251
Isotype:	IgG1
Quantity:	0.2 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Bacterial
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Carrier Free	Yes
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	Native organisms.

Specificity

Mouse anti Cholera Haemolysin antibody, clone 2024/251 recognizes *Vibrio cholerae* haemolysin (HlyA).

HlyA is an extracellular matrix damaging protein with a molecular weight of ~65 kDa existing as either a water-soluble monomer or an oligomeric amphipathic protein.

Vibrio cholerae haemolysin belongs to a class of proteins known as pore-forming toxins for their ability to punch holes in plasma membranes.

Storage

This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

Guarantee

12 months from date of despatch

Health And Safety Information
