Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species: Viral

Product Form: Ascites - Liquid

Preservative Stabilisers: None Present

Immunogen: 17D strain of yellow fever virus

RRID: AB_619294

Specificity: Mouse anti Yellow fever virus antibody, clone 2D12 recognizes the envelope protein of the wild (Asibi) and vaccine strains of yellow fever virus. The clone has been reported to have neutralising activity against the Asibi strain (Schlessinger et al. 1984). No cross reactivity with other flaviviruses has been reported.

6: 1255-62.

Storage
Store at -20°C only.
Storage in frost-free freezers is not recommended.
This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee
12 months from date of despatch.
