Datasheet: AAI19P BATCH NUMBER 155147

Description:	SHEEP ANTI BOVINE IgM:HRP			
Specificity:	IgM			
Format:	HRP			
Product Type:	Polyclonal Antibody			
lsotype:	Polyclonal IgG			
Quantity:	1 mg			

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-</u>							
	rad-antibodies.com/protocols.							
		Yes	Νο	Not Determined	Suggested Dilution			
	Immunohistology - Frozen							
	Immunohistology - Paraffin			•				
	ELISA	•			1/10,000 - 1/100,000			
	Western Blotting			•				
	Where this antibody has							
	necessarily exclude its us	se in such	procedure	es. Suggested worki	ng dilutions are given as			
	a guide only. It is recomn	nended the	at the use	r titrates the antibody	y for use in their own			
	system using the approp	riate nega	tive/positiv	ve controls.				
Target Species	Bovine							
Product Form	Purified IgG conjugated t	o Horsera	dish Pero	xidase (HRP) - liquid	I			
Antiserum Preparatio	n Antisera to bovine IgM w antigen. Purified IgG pre				sheep with highly purified			
Buffer Solution	Phosphate buffered salin	е						
Preservative	0.05% Proclin™ 300							
Stabilisers	0.2% Bovine Serum Albu	ımin						
Approx. Protein Concentrations	IgG concentration 1.0 mg	g/ml						
Immunogen	Purified bovine IgM.							

RRID	AB_323075					
Specificity	Sheep anti bovine IgM recognizes bovine IgM and shows no cross-reactivity with other bovine immunoglobulin classes in immunoelectrophoresis. Sheep anti bovine IgM may cross-react with IgM from other species.
