

Datasheet: AAI29P BATCH NUMBER 161069

Description:	GOAT ANTI CHICKEN IgG (Fc):HRP
Specificity:	IgG (Fc)
Other names:	IgY
Format:	HRP
Product Type:	Polyclonal Antibody
lsotype:	Polyclonal IgG
Quantity:	1 mg

Product Details

Applications	This product has been reported to work in the following applications. This information is							
	derived from testing within our laboratories, peer-reviewed publications or personal							
	communications from the originators. Please refer to references indicated for further							
	information. For general protocol recommendations, please visit <u>www.bio-</u>							
	rad-antibodies.com/protocols							
		Yes	No	Not Determined	Suggested Dilution			
	Immunohistology - Frozen			-				
	Immunohistology - Paraffin							
	ELISA	•			1/10,000 - 1/100,000			
	Western Blotting			•				
	Where this antibody has	not been	tested for	use in a particular te	echnique this does not			
	necessarily exclude its us	se in such	procedu	es. Suggested work	ing dilutions are given as			
	a guide only. It is recomm	nended th	at the use	er titrates the antiboo	ly for use in their own			
	system using the approp	riate nega	tive/positi	ve controls.				
Target Species								
rarget species	Chicken							
Product Form	Chicken Purified IgG conjugated t	o Horsera	idish Perc	oxidase (HRP) - liqui	d			
Product Form		vere raise	d by repe	ated immunisation o				
Product Form	Purified IgG conjugated t n Antisera to chicken IgG v	vere raise pared by a	d by repe	ated immunisation o				
Product Form Antiserum Preparatio	Purified IgG conjugated t n Antisera to chicken IgG v antigen. Purified IgG prep	vere raise pared by a	d by repe	ated immunisation o				
Product Form Antiserum Preparatio Buffer Solution	Purified IgG conjugated t n Antisera to chicken IgG v antigen. Purified IgG prep Phosphate buffered salin	vere raise bared by a e	d by repe	ated immunisation o				

Immunogen	Purified chicken IgG (Fc) fragment.
RRID	AB_323045
Specificity	Goat anti Chicken IgG (Fc) antibody recognizes the heavy chains of chicken IgG, specifically, epitopes within the Fc region and shows no cross-reactivity with other chicken immunoglobulin classes as assessed by immunoelectrophoresis. This Goat anti Chicken IgG polyclonal antibody does not react with the light chains of chicken IgG. Goat anti chicken IgG (Fc) has been used successfully for the evaluation of circulating
	levels of IgG in chickens using ELISA in a number of experimental and field situations.
