

Datasheet: AAI48

BATCH NUMBER 165004

Description: GOAT ANTI PIG Ig	
Specificity:	IgM
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			•	
Immunohistology - Frozen	-			1/200 - 1/2000
Immunohistology - Paraffin				
ELISA (1)	-			1/1000 - 1/30,000
Immunoprecipitation			•	
Western Blotting	-			1/1000 - 1/30,000
Immunocytochemistry				

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

(1)For coating plates a 1/100 - 1/500 dilution is recommended.

	(1) or coating plates a 1/100 - 1/300 dilution is recommended.	
Target Species	Pig	
Product Form	Purified IgG - liquid	
Antiserum Preparation	Antisera to porcine IgM were raised by repeated immunisation antigen. Purified IgG prepared by affinity chromatography using agarose beads.	• • • •
Buffer Solution	Phosphate buffered saline	
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)	

Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	Purified Porcine IgM
Specificity	Goat anti Pig IgM antibody recognizes porcine IgM and shows no cross-reactivity with other porcine immunoglobulin classes in immunoelectrophoresis. This antibody may cross-react with IgM from other species.
