

Datasheet: AAM50

BATCH NUMBER 170324

Description:	RABBIT ANTI MOUSE STEM CELL FACTOR
Specificity:	STEM CELL FACTOR
Other names:	SCF
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			0.5 - 2.0ug/ml
Immunoprecipitation			▪	
Western Blotting	▪			0.1 - 0.2ug/ml
Functional Assays	▪			0.60 - 0.65ug/ml
Immunocytochemistry	▪			

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using the appropriate negative/positive controls.

Target Species	Mouse
Product Form	Purified IgG - lyophilised
Reconstitution	<p>Reconstitute with 0.1ml distilled water</p> <p>Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution. For long term storage the addition of 0.09% sodium azide is recommended.</p> <p>N.B. For functional studies do not add sodium azide</p>

Antiserum Preparation Antisera to mouse SCF were raised by repeated immunisations of rabbits with highly

purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	None present
Carrier Free	Yes
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml after reconstitution.
Immunogen	Recombinant mouse SCF.
External Database Links	UniProt: P20826 Related reagents Entrez Gene: 17311 Kitl Related reagents
Synonyms	Kitl, Mgf, Sl, Slf
RRID	AB_2131595
Specificity	Rabbit anti Mouse stem cell factor antibody recognizes mouse stem cell factor (SCF). SCF is a stromal cell derived cytokine that synergizes with other haemopoietic growth factors to stimulate the proliferation of myeloid and lymphoid progenitors in bone marrow culture.
References	1. Chou, S. <i>et al.</i> (2013) Fetal Hepatic Progenitors Support Long-term Expansion of Hematopoietic Stem Cells. Exp Hematol. pii: S0301-472X(13)00016-7.
Storage	Prior to reconstitution store at -20°C. After reconstitution store at -20°C. This product should be stored undiluted. Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10162 available at: https://www.bio-rad-antibodies.com/SDS/AAM5010162
Regulatory	For research purposes only
