

Datasheet: AAR29

BATCH NUMBER 149043

Description:	RABBIT ANTI RAT INTERLEUKIN-10
Specificity:	IL-10
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			0.5 - 2.0ug/ml
Immunoprecipitation			▪	
Western Blotting	▪			0.1 - 0.2ug/ml
Functional Assays			▪	

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own systems with the appropriate negative/positive controls.

Target Species	Rat
Product Form	Purified IgG - lyophilised
Reconstitution	<p>Reconstitute with 0.1 ml distilled water</p> <p>Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution. For long term storage the addition of 0.09% sodium azide is recommended.</p>
Antiserum Preparation	Antisera to rat IL-10 were raised by repeated immunisations of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline

Preservative Stabilisers	None present
Carrier Free	Yes
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml after reconstitution
Immunogen	Recombinant rat IL-10
External Database Links	<p>UniProt: P29456 Related reagents</p> <p>Entrez Gene: 25325 IL10 Related reagents</p>
Synonyms	IL-10
RRID	AB_2125368
Specificity	<p>Rabbit anti Rat Interleukin-10 antibody recognizes rat interleukin-10 (IL-10)</p> <p>Rat IL-10 is a 18.7kD cytokine which exists as a homodimer.</p> <p>IL-10 is produced by a population of T-cells and is reported to inhibit the synthesis of several cytokines including IFN gamma, IL-2, IL-3 and TNF alpha.</p>
ELISA	AAR29 may be used in an indirect ELISA with PRP29 as the standard.
Western Blotting	AAR29 may be used under either reducing or non-reducing western blotting conditions with PRP29 as the positive control.
Storage	<p>Prior to reconstitution store at -20°C. After reconstitution store at -20°C.</p> <p>This product should be stored undiluted. Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10162 available at: https://www.bio-rad-antibodies.com/SDS/AAR29 10162
Regulatory	For research purposes only
