

Datasheet: AAR30B

Description:	RABBIT ANTI RAT MIP-1 ALPHA:Biotin
Specificity:	MIP-1 ALPHA
Other names:	CCL3
Format:	Biotin
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			0.15ug/ml - 0.30ug/ml
Western Blotting	▪			0.1ug/ml - 0.2ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Rat
Product Form	Purified IgG conjugated to Biotin - lyophilized
Reconstitution	Reconstitute with 0.5 ml sterile PBS containing 0.1% Bovine Serum Albumin. Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution.
Antiserum Preparation	Antisera to rat MIP-1 were raised by repeated immunisations of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	None Present

Carrier Free	Yes
Approx. Protein Concentrations	IgG concentration 0.1 mg/ml
Immunogen	Recombinant rat MIP-1 alpha.
External Database Links	<p>UniProt: P50229 Related reagents</p> <p>Entrez Gene: 25542 Ccl3 Related reagents</p>
Synonyms	Mip1a, Scya3
RRID	AB_2070918
Specificity	<p>Rabbit anti Rat MIP-1 alpha antibody recognizes rat macrophage inflammatory protein-1 alpha (MIP-1 alpha), also known as CCL3.</p> <p>MIP-1 alpha has a molecular weight of approximately 7.8kD, which is produced by activated macrophages. MIP-1 alpha has been shown to be involved in the inflammatory response of blood monocytes and tissue macrophages.</p>
Storage	<p>Prior to reconstitution store at -20°C. After reconstitution store at -20°C.</p> <p>This product should be stored undiluted. Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
Guarantee	12 months from date of despatch
