

Datasheet: AAR43 BATCH NUMBER 147448

Description:	SHEEP ANTI RAT ENDOTHELIN B RECEPTOR (C-TERMINAL)
Specificity:	ENDOTHELIN B RECEPTOR (C-TERMINAL)
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 mg

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .					
		Yes	No	Not Determined	Suggested Dilution	
	Flow Cytometry					
	Immunohistology - Frozen			•		
	Immunohistology - Paraffin	-			10 - 20ug/ml	
	ELISA			•		
	Immunoprecipitation				20 - 40ug/ml	
	Western Blotting					
	Immunofluorescence	-			10 - 20ug/ml	
	Immunocytochemistry	-				
	Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.					
Target Species	Rat					
Species Cross Reactivity	Reacts with: Mouse, Human N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.					
Product Form	Purified IgG - liquid					

Antiserum Preparation Antiserum to rat ET-B (CT) was raised by repeated immunisation of sheep with highly purified antigen. Purified IgG was prepared by affinity chromatography.

Buffer Solution Phosphate buffered saline Preservative Stabilisers 0.09%. Sodium Azide (NaN3) Approx. Protein Concentrations lgG concentration 1.41mg/ml Immunogen Keyhole limpet haemocyanin (KLH) conjugated C-terminal peptide KANDHGYDNFRSSINK corresponding to amino acids 424 to 437 of rat endothelin B receptor. External Database Links UniProt: P21451 Related reagents P48302 External Database Links P21451 Related reagents P48302 Sygnonyms Entrez Gene: S0672 Ednrb RRID AB_2096583 Specificity Sheep anti Rat endothelin B receptor antibody recognizes an epitope within the C-terminal (CT) region of endothelin B receptor (ET-B), a widely distributed transmembrane protein and member of the G-protein coupled receptor 1 family, which acts as a non-specific receptor for endothelin 1, 2, and 3, and mediates its action by G protein association and activation of a phosphatidylinositol-calcium second messenger system. Sheep anti Rat endothelin B receptor antibody (AAR43) recognizes epitopes on the cytoplasmic side of the receptor antibody (AAR43) recognizes epitopes on the cytoplasmic side of the receptor antibody (AAR43) recognizes epitopes on the cytoplasmic side of the sceptor antibody (AAR43) is suitable for use in immunocytochemistry on acetone fixed cells. Storeage Store at ±4°C. DO NOT FREEZE. This product should be stored undiluted. Should this product contain a precipitate we recommend microcentrifugation before use. Guarantee 12 months from date							
Stabilisers 0.09% Sodium Azide (NaN3) Approx.
