

Datasheet: AHP1000

BATCH NUMBER 161004R

| | |
|----------------------|--|
| Description: | RABBIT ANTI MOUSE TRIAD3A (N-TERMINAL) |
| Specificity: | TRIAD3A (N-TERMINAL) |
| Other names: | E3 ubiquitin-protein ligase RNF216 |
| Format: | Purified |
| Product Type: | Polyclonal Antibody |
| Isotype: | Polyclonal IgG |
| Quantity: | 0.1 mg |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |
|--------------------------------|-----|----|----------------|--------------------|
| Flow Cytometry | | | ▪ | |
| Immunohistology - Frozen | | | ▪ | |
| Immunohistology - Paraffin (1) | ▪ | | | |
| ELISA | | | ▪ | |
| Immunoprecipitation | | | ▪ | |
| Western Blotting | ▪ | | | 0.5 - 1.0ug/ml |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.

| | |
|------------------------------|---|
| Target Species | Mouse |
| Product Form | Purified IgG - liquid |
| Antiserum Preparation | Antisera to mouse TRIAD3A (NT) were raised by repeated immunisations of rabbits with highly purified antigen. Purified IgG prepared by ion exchange chromatography. |
| Buffer Solution | Phosphate buffered saline |
| Preservative | 0.02% Sodium Azide |

Stabilisers

Approx. Protein Concentrations

IgG concentration 1.0mg/ml

Immunogen

A 15 amino acid peptide located near mouse TRIAD3A amino-terminus.

Specificity

Rabbit anti Human TRIAD3A antibody recognizes an epitope within the N-terminal region (NT) of mouse TRIAD3A, a ubiquitously expressed E3 ubiquitin-protein ligase which plays an important role in the innate immune response.

Regulation of the level and duration of Toll-like receptor (TLR) activation is vital in controlling a pro-inflammatory response, to prevent harm to the host. Several proteins involved in the regulation of TLR signaling have been described including ST2 and IL-1R-associated kinase M, along with many other adaptor proteins of the MyD88 family, which mediate TLR signal transduction. TRIAD3A, identified as a RING finger member of the E3 ligase family of proteins, binds to the cytoplasmic tail of several TLRs, notably TLR4 and TLR9, resulting in ubiquitination and proteolytic degradation, thereby regulating their expression. TRIAD3A does not appear to regulate the expression of TLR2.

Western Blotting

AHP1000 detects a band of approximately 95kDa in mouse heart cell lysates.

Further Reading

1. Chuang, T.H. & Ulevitch, R.J. (2004) Triad3A, an E3 ubiquitin-protein ligase regulating Toll-like receptors. [Nat Immunol. 5 \(5\): 495-502.](#)
2. Brint, E.K. *et al.* (2004) ST2 is an inhibitor of interleukin 1 receptor and Toll-like receptor 4 signaling and maintains endotoxin tolerance. [Nat Immunol. 5 \(4\): 373-9.](#)

Storage

Store at +4°C or at -20°C if preferred.

Storage in frost-free freezers is not recommended.

This product should be stored undiluted.

Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee

12 months from date of despatch
