

## Datasheet: AHP1018

<b>Description:</b>	RABBIT ANTI HUMAN CADHERIN 13
<b>Specificity:</b>	CADHERIN 13
<b>Other names:</b>	T-CADHERIN
<b>Format:</b>	Purified
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	0.1 mg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA			▪	
Immunoprecipitation			▪	
Western Blotting	▪			0.5 - 1.0ug/ml
Immunofluorescence	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

### Target Species

Human

### Species Cross Reactivity

Reacts with: Mouse

**N.B.** Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

### Product Form

Purified IgG - liquid

### Antiserum Preparation

Antisera to Cadherin 13 were raised by repeated immunisations of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative Stabilisers</b>	0.02% Sodium Azide (NaN <sub>3</sub> )
<b>Approx. Protein Concentrations</b>	IgG concentration 1.0mg/ml
<b>Immunogen</b>	Synthetic peptide corresponding to N-terminus of human Cadherin 13.

<b>Synonyms</b>	CDHH
<b>RRID</b>	AB_2260280
<b>Specificity</b>	<p><b>Rabbit anti Human cadherin 13 antibody</b> recognizes human Cadherin 13, a ~78 kDa, calcium-dependent, glycoprotein. While Cadherin 13 is a member of the cadherin family, it lacks their conserved cytoplasmic region, being instead anchored to the plasma membrane via glycosylphosphatidylinositol linkage. It is expressed in the heart and CNS with the exception of the cerebellum and spinal cord.</p> <p>Cadherin 13 is classified as a cell-cell adhesion molecule, although it is likely that it's role is in signalling and not physical adhesion. It is involved in regulating low-density lipoprotein-initiated cell proliferation, keratinocyte proliferation, neural cell growth and may play a role in metabolic regulation. Cadherin 13 protects endothelial cells from oxidative stress-induced apoptosis and may contribute to progression of vascular disorders such as atherosclerosis, restenosis and tumour angiogenesis.</p>
<b>Western Blotting</b>	AHP1018 detects a band/s of approximately 78kDa in 3T3 cell lysates.
<b>Further Reading</b>	1. Ivanov, D. <i>et al.</i> (2004) T-cadherin upregulation correlates with cell-cycle progression and promotes proliferation of vascular cells. <a href="#">Cardiovasc Res. 64 (1): 132-43.</a>
<b>Storage</b>	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
<b>Guarantee</b>	12 months from date of despatch
<b>Health And Safety</b>	Material Safety Datasheet documentation #10040 available at:
