

Datasheet: AHP1063 BATCH NUMBER 161108

Description:	GOAT ANTI HUMAN FTCD (N-TERMINAL)				
Specificity:	FTCD (N-TERMINAL)				
Format:	Purified				
Product Type:	Polyclonal Antibody				
Isotype:	Polyclonal IgG				
Quantity:	0.1 mg				

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .						
		Yes	No	Not Determined	Suggested Dilution		
	Flow Cytometry			-			
	Immunohistology - Frozen			•			
	Immunohistology - Paraffin						
	ELISA	•			1/64000		
	Immunoprecipitation			•			
	Western Blotting	-			0.03 - 0.5ug/ml		
	Where this product has not been tested for use in a particular technique this does not						
Target Species	a guide only. It is recomm system using appropriate Human			•	or use in their own		
Species Cross Reactivity	Based on sequence similarity, is expected to react with:Mouse N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.						
Product Form	Purified IgG - liquid						
Antiserum Preparatio	n Antisera to FTCD were ra antigen. Purified IgG pre	-	-	-	with highly purified		
Buffer Solution	TRIS buffered saline						

Preservative Stabilisers 0.02% Sodium Azide (NaN ₃) 0.5% Bovine Serum Albumin Approx. Protein Concentrations IgG concentration 0.5mg/ml Immunogen Peptide with sequence SQLVECVPNFSEGKNQ from the N-terminus of FTCD. Extornal Database Links UniProt: .035954 Related reagents Entrez Gene: .10841 FTCD Related reagents Specificity Goat anti Human FTCD antibody detects an epilope within the N-terminal (N1) region of formininotransferase cyclodeaminase (FTCD). FTCD is a homo-octameric bifunctional enzyme which plays important roles in coupling histidine catabolism with folate metabolism, and integrating the Golgi complex with the vimentin intermediate filament cytoskeleton. Vestern Blotting AHP1063 detects a band of approximately 55-60kDa in human liver lysate. References 1. Mao, Y. et al. (2004) Characterization of the antigenicity of the formininotransferase cyclodeaminase otamer. EMBO J. 23 (15): 2963.71, 2. Renous, R. et al. (2004) Characterization of the antigenicity of the formininotransferase-cyclodeaminase in type 2 autoimmune hepatitis. Exp Cell Res. 292 (2): 332-41. Storeage Store at +4°C or at -20°C if preferred. Storeage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentifugation before use. Guarantee 12 months from date of despatch Health And Safety Information Mater		
Concentrations IgG concentration 0.5mg/ml Immunogen Peptide with sequence SQLVECVPNFSEGKNQ from the N-terminus of FTCD. External Database UniProt: 05954 Related reagents Entrez Gene: 0995954 0684 Specificity Goat anti Human FTCD antibody detects an epitope within the N-terminal (NT) region of formiminotransferase cyclodeaminase (FTCD). FTCD is a homo-octameric bifunctional enzyme which plays important roles in coupling histidine catabolism with folate metabolism, and integrating the Golgi complex with the vimentin intermediate filament cytoskeleton. FTCD is present in all mammalian cells either free in the cytosol or tightly bound to the Golgi complex, and is most abundant in the liver. FTCD is linked to two human diseases, autoimmune hepatitis and glutamate formiminotransferase deficiency (Mao <i>et al.</i> 2004). Western Blotting AHP1063 detects a band of approximately 55-60kDa in human liver lysate. References 1. Mao, Y. <i>et al.</i> (2004) Structure of the bifunctional and Golgi-associated formiminotransferase-cyclodeaminase octamer. EMBO J. 23 (15): 2863-71.
