

Datasheet: AHP1156

**BATCH NUMBER 155917**

<b>Description:</b>	RABBIT ANTI HUMAN DKK1
<b>Specificity:</b>	DKK1
<b>Other names:</b>	DICKKOPF (XENOPUS LAEVIS) HOMOLOGUE 1
<b>Format:</b>	Purified
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	50 µg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin (1)	▪			10ug/ml
ELISA			▪	
Immunoprecipitation			▪	
Western Blotting			▪	
Functional Assays			▪	

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

**(1)This product requires antigen retrieval using heat treatment prior to staining of paraffin sections.Sodium citrate buffer pH 6.0 is recommended for this purpose.**

<b>Target Species</b>	Human
<b>Product Form</b>	Purified IgG - liquid
<b>Preparation</b>	Purified IgG prepared by affinity chromatography
<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative</b>	0.1% Sodium Azide (NaN <sub>3</sub> )

---

**Stabilisers**

---

**Approx. Protein Concentrations** IgG concentration 1.0mg/ml

---

**Immunogen** Synthetic human DKK1 - KLH conjugated.

---

**Specificity**

**Rabbit anti Human DKK1 antibody** recognises human Dickkopf (*Xenopus laevis*) homolog 1 (DKK1), a 35 kDa to 50 kDa member of the dickkopf family. It is expressed in the placenta, prostate and to a lesser extent, in the colon and spleen. DKK1 is secreted when expressed in 293T cells.

DKK1 inhibits Wnt signalling in embryonic development, most likely acting upstream of frizzled. It is also thought to contribute to neoplastic processes, inhibit osteoblast differentiation and is associated with the presence of osteolytic bone lesions in patients with multiple myeloma.

---

**Histology Positive Control Tissue**

Uterus, endometrium.

**Storage**

Store at +4°C or at -20°C if preferred.  
Storage in frost-free freezers is not recommended.  
This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
