

## Datasheet: AHP1381

<b>Description:</b>	RABBIT ANTI HUMAN PLGF
<b>Specificity:</b>	PLGF
<b>Other names:</b>	PLACENTAL GROWTH FACTOR
<b>Format:</b>	Purified
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	0.1 mg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin (1)	▪			2.0ug/ml
ELISA	▪			0.5 - 2.0ug/ml
Immunoprecipitation			▪	
Western Blotting	▪			0.1 - 0.2ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

**(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.**

<b>Target Species</b>	Human
<b>Product Form</b>	Purified IgG - lyophilised
<b>Reconstitution</b>	Reconstitute with 0.1ml distilled water Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution. For long term storage the addition of 0.09% sodium azide is recommended.

**Antiserum Preparation** Antisera to human PIGF were raised by repeated immunisations of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative Stabilisers</b>	None present
<b>Carrier Free</b>	Yes
<b>Approx. Protein Concentrations</b>	IgG concentration 1.0mg/ml after reconstitution
<b>Immunogen</b>	Recombinant human PLGF.

<b>Synonyms</b>	PGFL, PLGF
<b>RRID</b>	AB_2161051
<b>Specificity</b>	<p><b>Rabbit anti human PIGF antibody</b> recognizes human placental growth factor (PIGF). PIGF is a dimeric glycoprotein and member of the vascular endothelial growth factor (VEGF) family, involved in angiogenesis, and the stimulation of endothelial cell proliferation and migration.</p> <p>The three isoforms PIGF-1, PIGF-2 and PIGF-3 are present in most placental tissues and act through binding to the VEGFR-1/FLT1 receptor. The involvement of PIGF in angiogenesis has made PIGF a focus area in the study of inflammatory diseases such as rheumatoid arthritis and psoriasis, and PIGF is used as a biochemical marker in cardiovascular disease, and also detected at reduced levels during pre-eclampsia (<a href="#">Krauss et al. 2004</a>).</p>
<b>Western Blotting</b>	This purified human PLGF antibody may be used in Western Blotting applications under either reducing or non-reducing conditions.
<b>References</b>	1. Maglione, D. <i>et al.</i> (1991) Isolation of a human placenta cDNA coding for a protein related to the vascular permeability factor. <a href="#">Proc Natl Acad Sci U S A. 88 (20): 9267-71.</a>
<b>Storage</b>	<p>Prior to reconstitution store at -20°C.  After reconstitution store at -20°C.</p> <p>This product should be stored undiluted. Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
<b>Guarantee</b>	6 months from date of despatch
