

Datasheet: AHP1419

**BATCH NUMBER 171009**

<b>Description:</b>	RABBIT ANTI PCNA
<b>Specificity:</b>	PCNA
<b>Other names:</b>	PROLIFERATING CELL NUCLEAR ANTIGEN
<b>Format:</b>	Purified
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	50 µg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin (1)	▪			2.5ug/ml
ELISA	▪			1/2000 - 1/8000
Immunoprecipitation			▪	
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

**(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.**

### Target Species

Human

### Species Cross Reactivity

Reacts with: Chicken, Rat, Bovine, Monkey, Mouse, Dog

Based on sequence similarity, is expected to react with: Fish, Amphibia

**N.B.** Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

<b>Product Form</b>	Purified IgG - liquid
<b>Antiserum Preparation</b>	Antiserum to human PCNA was raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative Stabilisers</b>	0.09% Sodium Azide (NaN <sub>3</sub> )
<b>Approx. Protein Concentrations</b>	IgG concentration 0.5 mg/ml
<b>Immunogen</b>	Synthetic peptide corresponding an internal region of human PCNA protein.
<b>External Database Links</b>	<p><b>UniProt:</b>  <a href="#">P12004</a>    <a href="#">Related reagents</a></p> <p><b>Entrez Gene:</b>  <a href="#">5111</a>    PCNA    <a href="#">Related reagents</a></p>
<b>RRID</b>	AB_2252059
<b>Specificity</b>	<p><b>Rabbit anti Human PCNA antibody</b> recognizes Human Proliferating Cell Nuclear Antigen (PCNA), also known as cyclin. PCNA is a 261 amino acid ~36 kDa nuclear protein vital for cellular DNA synthesis, playing a key role in the DNA damage response where it acts as a loading platform to recruit additional damage repair proteins to lesions following DNA damage and promote repair (<a href="#">Burkovics et al. 2009</a>).</p> <p>PCNA is a useful marker for DNA synthesis and is highly conserved among most species. Rabbit anti human PCNA antibody is expected to have wide species cross reactivity. PCNA expression in human dermis is negatively correlated to age as demonstrated by immunohistochemistry on paraffin sections using rabbit anti human PCNA antibody (<a href="#">Gunin et al. 2014</a>).</p>

<b>Storage</b>	Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
<b>Guarantee</b>	12 months from date of despatch
