

Datasheet: AHP1423

Description:	RABBIT ANTI HUMAN CASPASE-2		
Specificity:	CASPASE-2		
Other names:	CASP-2		
Format:	Purified		
Product Type:	Polyclonal Antibody		
Isotype:	Polyclonal IgG		
Quantity:	50 µg		

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry				
Immunohistology - Frozen				
Immunohistology - Paraffin (1)	•			10ug/ml
ELISA				
Immunoprecipitation				
Western Blotting				1ug/ml
Functional Assays			•	

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1)This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.
Product Form	Purified IgG - liquid

Antiserum Preparation Antiserum to human caspase-2 was raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	<0.1% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 1.0mg/ml
Immunogen	Synthetic peptide corresponding to 6 amino acid sequence from the amino-terminus of human Caspase-2.
External Database Links	UniProt: P42575 Related reagents Entrez Gene: 835 CASP2 Related reagents
Synonyms	ICH1, NEDD2
RRID	AB_2290813
Specificity	recognises human caspase-2, a 53 kDa member of the cysteine-aspartic acid protease (caspase) family.
	Caspase-2 is required for the permeabilisation of the mitochondria and the resulting amplification of caspase activity, in response to cytotoxic stress. Cytotoxic stress induced proteolytic cleavage of the caspase-2 proenzyme forms an active caspase which cleaves other caspases in a cascade. This leads to the release of cytochrome c and Smac from mitochondria and the translocation of Bax from the cytoplasm to the mitochondria, leading to apoptosis.
	In adults, caspase-2 is expressed in the placenta, lung, kidney, pancreas and at lower levels in the heart, brain, liver and skeletal muscle.
Histology Positive Control Tissue	Human placenta
Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.
	Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.
Guarantee	12 months from date of despatch
